Coming Attractions in Disneyland

On the Magic Kingdom's opening day, Walt Disney promised that "Disneyland will never be completed as long as there is imagination left in the world."

In keeping with this philosophy, Disneyland will be presenting four new attractions in Summer, 1966: New Orleans Square, The Pirates of the Caribbean, "It's a Small World" and an exciting new addition to the Grand Canyon Diorama.

New Orleans Square will be an authentic re-creation of the excitement and adventure that was part of the bustling city of New Orleans a century ago. True-to-the-times restaurants, shops and entertainments will highlight this major addition to the Magic Kingdom.

The Pirates of the Caribbean will be the exciting new adventure connected with New Orleans Square. Guests will board boats for a bayou voyage on which they will meet the world's most famous, and infamous, pirates and adventurers.

"**It's a Small World**," one of the most popular attractions at the New York World's Fair, will find a permanent home in Fantasyland next summer. Here guests will meet the children of the world, all brought to life by the magic of Audio Animatronics, the same process used in the Enchanted Tiki Room and "Great Moments with Mr. Lincoln."

The Grand Canyon and Forest Primeval Diorama will unfold for guests riding trains of the Santa Fe & Disneyland Railroad, when Audio-Animatronics gives life to some of the most fearsome creatures that ever roamed the North American continent. In one dramatic adventure, train passengers will view both the Grand Canyon as it is today, and as it was many millions of years ago. After travelling through the rainbow-hued beauty of today's Grand Canyon, trains will enter the Forest Primeval, where huge dinosaurs still thunder over the land and rule the swamps and marshes. More than 14 million people viewed these giant reptiles in the Walt Disney show for Ford at the New York World's Fair.
